

Experiment -1

Car Booking Reservation System Using Zoho One (SaaS)

Aim

To create a **Car Booking Reservation System** using **Zoho One** as a cloud-based Software as a Service (SaaS) application.

Procedure

1. Log in to the **Zoho One** cloud platform.
2. Open **Zoho Creator** from the Zoho One applications.
3. Create a new application for the **Car Booking Reservation System**.
4. Create a new form named **Car Booking Reservation**.
5. Add the required fields:
 - From
 - To
 - Rental
 - Outstation
 - Package Type
 - Hours/Days
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample cab booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different booking details.
12. Verify that the **Car Booking Reservation System** works successfully as a SaaS application.
