Online Supermarket System Using Zoho One (SaaS)

Aim

To create an Online Supermarket System using Zoho One as a cloud-based Software as a Service (SaaS) application.

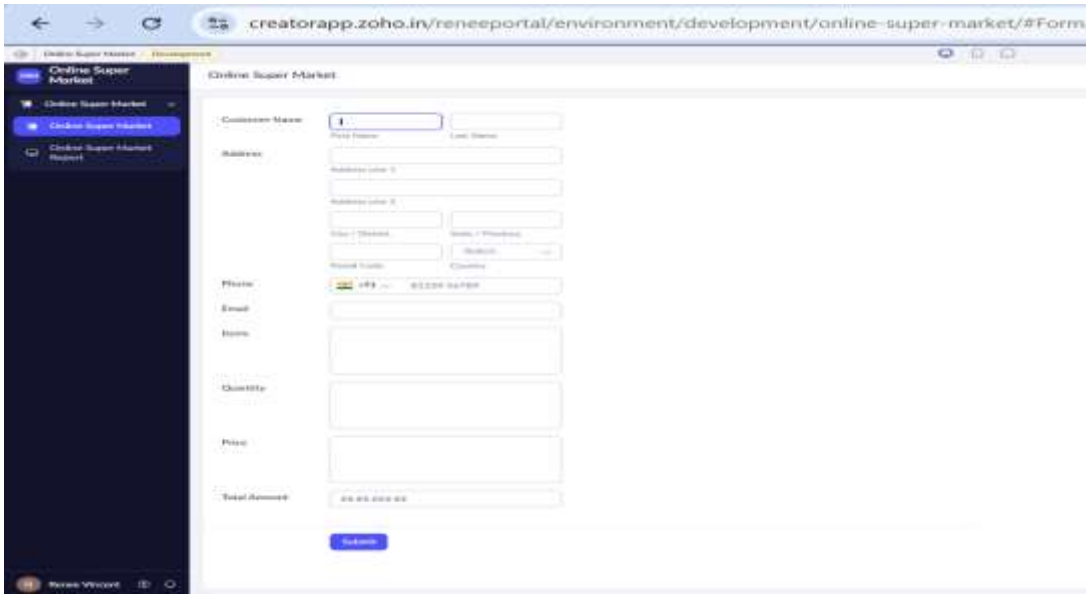

Procedure

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application named **Online Supermarket System**.
4. Create a new form named **Customer Order**.
5. Add the required fields:
    - Customer Name
    - Address
    - Phone Number
    - Email Address
    - Item Name
    - Item Classification (Groceries / Fruits / Vegetables / Dairy Products / Household Items)
    - Quantity
    - Unit Price
    - Total Amount
    - Payment Method
    - Order Date
    - Order Status (Pending / Confirmed / Delivered)
6. Configure the field types according to the data required.
7. Create a separate form named **Item Classification**.
8. Add the required fields to the Item Classification form:
    - Item ID
    - Item Name

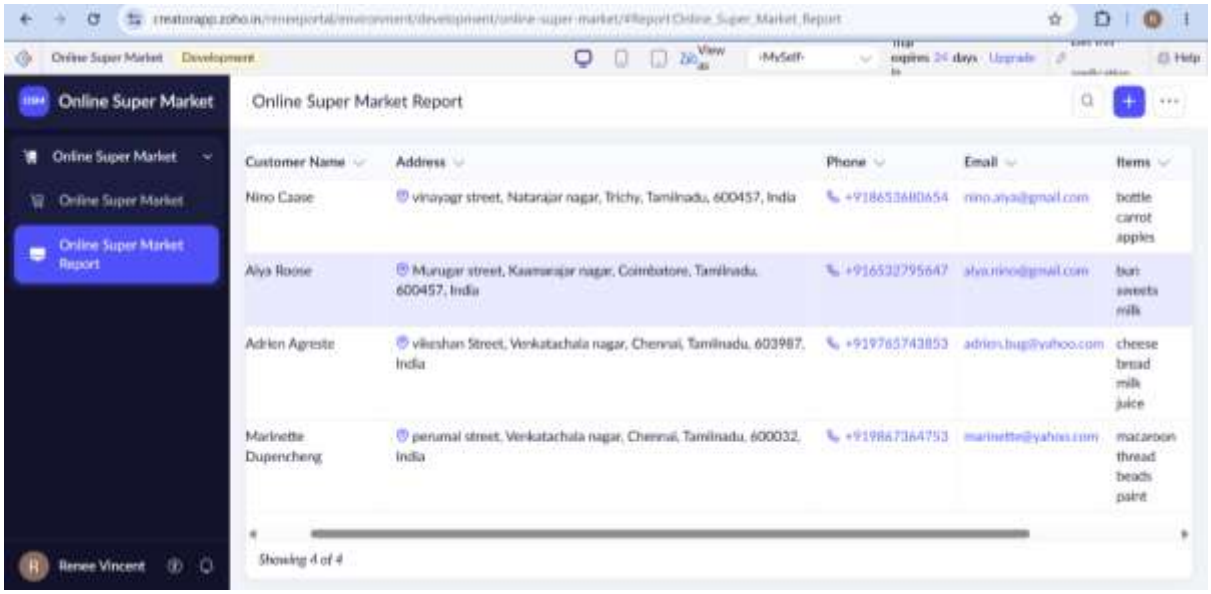

- Item Category
- Description
- Unit Price
- Available Quantity

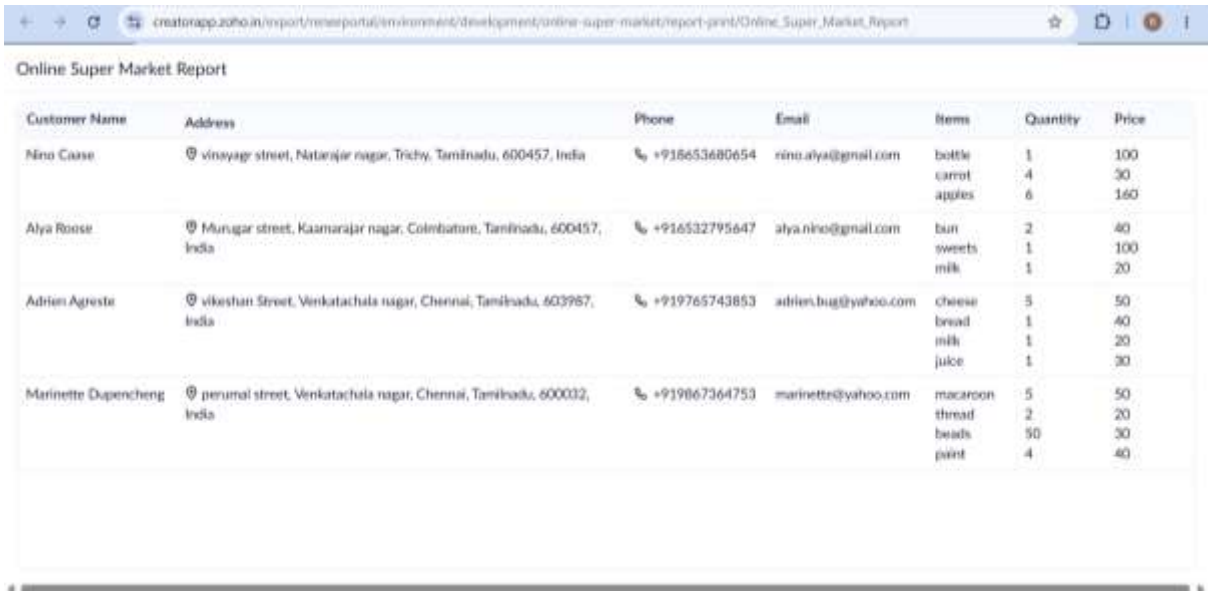

9. Design and arrange the forms for easy user interaction.
10. Save and publish the forms.
11. Enter sample customer details and supermarket order information into the forms.
12. Submit the forms and verify that the entered data is stored in the cloud.
13. Test the application by ordering different items from various categories and verifying the order details.
14. Verify that the Online Supermarket System works successfully as a SaaS application.
