

Experiment -5

Aim

To create a Complaint Management System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Procedure

- Log in to the **Zoho One** cloud platform.
- Open **Zoho Creator** from the Zoho One applications.
- Create a new application for the **Complaint Management System**.
- Create a new form named **Complaint Registration**.
- Add the required fields:
 - Customer Name
 - Email / Phone Number
 - Complaint Type
 - Complaint Description
 - Complaint Date
 - Priority
 - Department
 - Complaint Status
 - Remarks
- Configure the field types according to the data required.
- Design and arrange the form for easy user interaction.
- Save and publish the form.
- Enter sample complaint details into the form.
- Submit the form and verify that the entered data is stored in the cloud.
- Test the application by entering different complaint details.
- Verify that the **Complaint Management System** works successfully as a SaaS application.
