

Experiment -2
Room Booking Reservation System Using Zoho One
(SaaS)

Aim

To create a **Room Booking Reservation System using Zoho One** as a cloud-based **Software as a Service (SaaS)** application.

Procedure

1. Log in to the **Zoho One** cloud platform.
2. Open **Zoho Creator** from the Zoho One applications.
3. Create a new application for the **Room Booking Reservation System**.
4. Create a new form named **Room Booking Reservation**.
5. Add the required fields:
 - Customer Name
 - Email / Phone Number
 - Room Type
 - Check-in Date
 - Check-out Date
 - Number of Guests
 - Number of Rooms
 - Booking Type
 - Payment Status
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample room booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different room booking details.
12. Verify that the **Room Booking Reservation System** works successfully as a SaaS application.
